

Free SharePoint!

Team Portal Free Version is the perfect tool for collaborating and communicating with your team on documents, task lists, calendars, and to share information. The service provides users with rich, out-of-the-box user friendly SharePoint functionality. You can collaborate on Team Portal with as many members as you like – at no cost!

Key Features

- Hosted SharePoint.
- User friendly dashboard for managing sites, people and resources.
- Create tasks and assign them to other members – track the progress.
- Online document and file sharing with document check-in and check-out for efficient document collaboration.
- Discussion forum.
- Shared team calendar.
- No software installation.
- Limited to 50 MB storage and one SharePoint site per account. Upgrade possible for more storage and more sites.

Benefits

- Accelerated team productivity with easy-to-use collaborative tools.
- Work more efficiently, save time and resources.
- Reduce travelling and cut costs by collaborating online.
- Comprehensive security.
- Have full control of what other team members work on.
- Get started right away, deploy a fully working site in a couple of minutes, not days.
- Little or no training required.
- Log on from anywhere in the world.
- Invite as many members as you want from anywhere in the world.
- Start your Live Meetings, Cisco WebEx or Adobe Connect Pro web conferencing services from the portal.
